

# German-Language Business Website

I developed a fully functional website in German for a local business, ensuring that all content, navigation, and interface elements were tailored to German-speaking users. The website was designed to cater to the needs of a growing business, with a focus on providing information about products and services in a professional and accessible manner.

The screenshot shows a WordPress-based website for 'LIMMERTRONIK DIENSTLEISTUNGEN'. The header includes the WordPress admin bar, a purple navigation bar with 'STARTSEITE', 'ÜBER UNS', and 'KONTAKT' buttons, and contact information (+49 1577 7771751, +49 176 46038399, info@lt-dl.de). The main banner features a purple-to-green gradient background with a wavy pattern. The title 'LIMMERTRONIK DIENSTLEISTUNGEN' is at the top, followed by 'Startseite — Über Uns'. The central text reads 'Entdecken Sie unser Engagement für Qualität'. Below it, a subtext states: 'Bei LIMMERTRONIK widmen wir uns der Bereitstellung außergewöhnlicher Reinigungs- und Gartendienstleistungen. Erfahren Sie mehr über unser Team, unsere Werte und was unser Streben nach Exzellenz antreibt.' To the right is a photo of a man cleaning a glass facade. Below the banner is a white section with a circular image of people working in a garden, a blue bucket with yellow gloves, and the text 'WER WIR SIND' and 'Der Exzellenz in Reinigungs- und Gartendienstleistungen verpflichtet'. A descriptive paragraph follows, and a call-to-action button 'Erfahren Sie mehr über uns →' is at the bottom.

# Project Overview

Multilingual Support: Developed the website entirely in German, focusing on cultural and linguistic accuracy to ensure a native user experience.

Designed and developed a fully localized WordPress website for a business, using Elementor to create a responsive and user-friendly interface tailored to the German market.
